

PROFLOW™

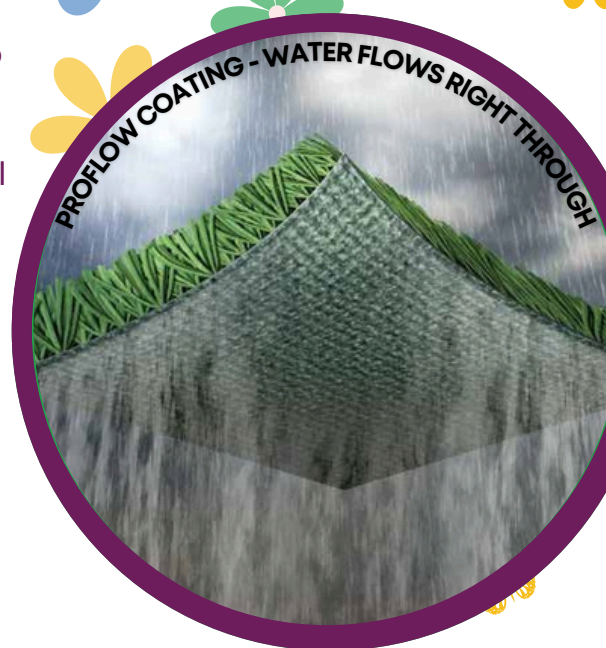

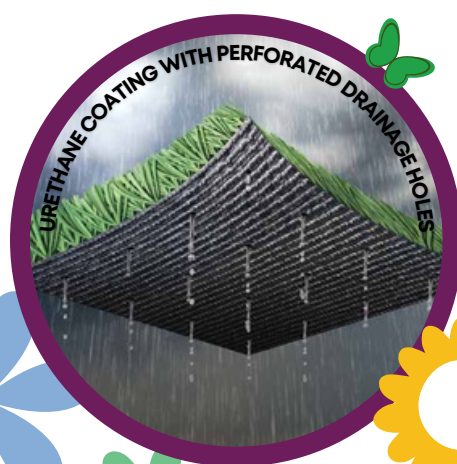

Perforation-free Urethane Backing (Patent Pending)

Say goodbye to puddles and soggy play spaces! SprintPlay turf with ProFlow™ backing is engineered for superior drainage, keeping playgrounds, sports fields, and pet areas dry, clean, and ready for action—rain or shine. With faster water flow, improved durability, and low maintenance, ProFlow™ makes every surface safer, stronger, and Made for Play!

- **Unmatched Drainage Performance** – ProFlow™ drains water faster than traditional turf backings, reducing downtime after rain.
- **Safer, Drier Play Spaces** – No standing water means fewer slips, faster drying, and more fun!
- **Prevents Bacteria & Odor Build-Up** – Advanced design resists mold, mildew, and unpleasant smells, keeping turf fresh and clean.
- **Durability You Can Trust** – Reinforced construction prevents matting, expansion, and breakdown over time.
- **Low-Maintenance & Eco-Friendly** – No chemicals, no puddles, just long-lasting, hassle-free performance.
- **Versatile for Any Application** – Perfect for playgrounds, sports fields, dog parks, and recreational landscapes.

PROFLOW TEST RESULTS:

FEATURED	PERFORATED URETHANE	PROFLOW COATING
DRAINAGE RATE	>53.0" / HR	>104.6" / HR
TUFT BIND	>9 LBS / FORCE	>12.5 LBS / FORCE

SprintPlay Turf + ProFlow™ = Maximum Playability, Minimal Maintenance!
